

Learn the Skills and Game Strategies of Badminton while staying fit, developing English and learning to collaborate with peers!

Course Teacher Information:

Mr Brendon Salmon is one of our Prep Homeroom Teachers with Bachelors Degrees in both Education and Physical Education. He is an avid sportsman and has a range of sporting abilities and talents, one of which is Badminton. Reviewing our students' CCA request in our recent survey, we noted that Badminton was a regular request and Mr Salmon jumped at the chance to lead this new CCA, which will take place on our Kapok Quad.

Course Overview

Enrollment Criteria	Students with a range of abilities are welcome as Mr Salmon will group students by level to develop their skills. They should be able to listen and respond in English and cooperate with peers.
Engage and Assess	In the first weeks of the course, students will learn the rules of the game, understand the regulations and think about how to stay safe when playing badminton. They will explore the equipment and learn how to care for this and will start to build basic skills of the game.
Explore and Develop	In the middle weeks of the course, students will build on their basic skills to learn serving, backhand, forehand, net play and positioning skills and strategies. The focus will be on individual play with some initial specialised skills being introduced.
Refine and Present	In the final weeks of the course, students will bring together all they have learnt and will move from individual play into team play. We will focus on strategies to use when working as part of a team and will develop specialised skills for the game.
Parent Engagement Opportunity	Parents will be invited to view the students in action in the final session of the CCA course.
Others	School will provide the equipment. Students may bring their own badminton racquet if they prefer. PE clothes should be worn on this day.
