Course Overview

Enrollment Criteria	Students who would benefit from this are those who would like to explore different artistic materials and techniques. In order to participate in this course, students should have a love for creative activities and some knowledge of using different colours and materials.
Engage and Assess	In the first weeks, children will be assessed on their ability to express themselves creatively, practising their drawing, colouring and fine motor skills. We will complete a variety of art activities.
Explore and Develop	In the middle weeks of the course, students will develop their competence and confidence using different artistic media, including oil pastels and water colours. We will apply these skills to a range of creative activities.
Refine and Present	In the final week of the course, students will showcase their learning through a small art gallery presentation to an audience of students and parents.
Parent Engagement Opportunity	Parents will be invited to our big showcase afternoon, where the children will present their learning. We hope you will continue to help your child develop their creative skills at home.
